- 1945 Elm Street, Uptown,  
ST 98765

## Education

2021 - 2023 Greenfield, ST

### Master of Science in Artificial Intelligence

Specialized in machine learning algorithms and neural networks. Completed a thesis project on deep learning applications in image recognition.

## Skills

- Python
- Java
- AWS
- Google Cloud
- Angular
- Node.js
- Ruby on Rails

## Languages

Kurdish: Fluent

English: Good

German: Moderate

Chinese : Beginner

## Profile

Highly skilled and innovative software developer with a robust background in machine learning and artificial intelligence. Proven expertise in designing and implementing data-driven solutions that improve business operations and drive growth. Strong team player with excellent problem-solving abilities and a commitment to continuous improvement.

## Work experience

### Lead AI Engineer

2017

Leading the development of AI-powered solutions for various industries. Implemented machine learning models that increased predictive accuracy by 30%. Managed a team of data scientists and engineers, ensuring timely delivery of projects.

### Software Developer

2019

Developed and maintained software applications with a focus on data analysis and processing. Collaborated with cross-functional teams to create efficient and scalable software solutions. Improved system performance through code optimization and regular updates.

## Courses

### Advanced Algorithm Design

2019

Gained a deep understanding of advanced algorithms, including graph algorithms, dynamic programming, and optimization techniques.

### Leadership in Technology

2022

Developed leadership skills tailored to technology professionals, focusing on team management, project planning, and communication.
